

The CEFR Grid for Writing Tasks* v. 3.1 (presentation)

This grid has been developed in order to assist test providers in their work with the *Common European Framework of Reference for Languages: Learning, Teaching, Assessment (CEFR)* and the *Manual for Relating Language Examinations to the CEFR*, both available from the Language Policy Division of the Council of Europe.

There are two varieties of this grid: the **analysis** grid and the **presentation** grid (this one). The **analysis** grid is intended to be used in workshops, benchmarking events and for other activities where participants at the event are asked to complete the grid. In these cases, the activities are likely to be part of the *standardisation of judgements* stage described in the *Manual*. Where the grid is to provide a descriptive record of test tasks, the **presentation** grid may be more suitable. If completed grids are intended to be offered as illustrative samples, their final use will relate to *standardisation of judgements* stage of the *Manual*. On the other hand, if test providers wish to analyse test content and specifications for their own purposes, the relevant stage is *specification*.
